Cart: CRUD

The screenshot shows the MongoDB Atlas web interface. On the left, a sidebar contains navigation links for Overview, DATABASE, Clusters, SERVICES, Atlas Search, Stream Processing, Triggers, Migration, Data Federation, SECURITY, Quickstart, Backup, and Database Access. The 'test' namespace is expanded, showing 'carts', 'products', and 'users' collections. The 'carts' collection is selected, displaying its details: STORAGE SIZE: 32KB, LOGICAL DATA SIZE: 0B, TOTAL DOCUMENTS: 0, and INDEXES TOTAL SIZE: 56KB. Below this, a 'Find' tab is active, showing a query filter bar with the text 'Type a query: { field: 'value' }'. The 'QUERY RESULTS: 1-1 OF 1' section displays a single document in JSON format:

```
{  "_id": ObjectId("6867eb721a17328b64131b8b"),  "userId": ObjectId("685ed680b5878ebec08f1016"),  "productId": ObjectId("685d61c14b4d1b43f6bd7155"),  "quantity": 1,  "__v": 0}
```

new product added in cart (quantity 1)

This screenshot is identical to the one above, showing the MongoDB Atlas interface with the 'test.carts' collection. The document displayed is the same:

```
{  "_id": ObjectId("6867eb721a17328b64131b8b"),  "userId": ObjectId("685ed680b5878ebec08f1016"),  "productId": ObjectId("685d61c14b4d1b43f6bd7155"),  "quantity": 1,  "__v": 0}
```

fetches all products (total 1 item)
